✓✓ The Missouri Department of Natural Resources has requested that the above subject site be unarchived (see attached email). Presently the MDNR is conducting a Site Reassessment activity to show that this site scores above 28.5. MDNR has this site in their Cooperative Program and the responsible party is willing to prepare a RI/FS after completion of the Site Reassessment which will show the site is NPL caliber. The Site Reassessment Report is expected to be submitted to EPA by September 30, 2006.

I agree with the strategy of MDNR and request that you unarchive this site.
